CAT.8 25G/40G High-Speed Ethernet Cabling

Up to 2,000 MHz / High-Performance Connectivity

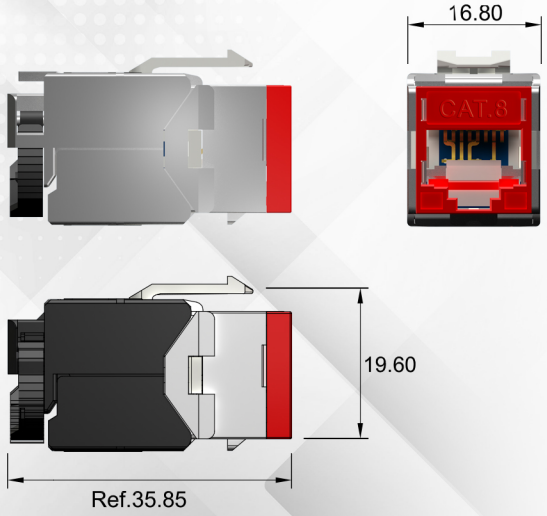

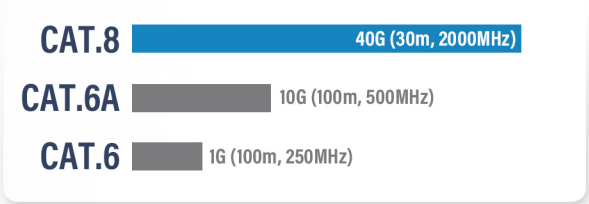

- Up to 40 Gbps
- Reduce EMI
- Stable transmission speed

Telebox | Telebox Industries Corp. © 10.01. 2026

CAT.8 Designed for Next-Generation Data Networks

Up to 2,000 MHz / High-Performance Connectivity

- Up to 40 Gbps transmission speed
- Up to 2,000 MHz bandwidth
- Supports 40GBASE-T Ethernet
- Designed for improved EMI / crosstalk performance
- Ideal for data centers and high-density networks
- Compatible with standard RJ45 interfaces
